

Opportunity to join the NHS Innovation Accelerator

The **AHSN** Network **NHS** England
NHS Innovation Accelerator

Apply by 24th October 2018

The NHS Innovation Accelerator is now recruiting exceptional individuals with evidence-based ready-to-scale innovations.

We are seeking local, national and international innovations that address the following NHS priorities:

- Prevention and early intervention (cancer, cardiovascular disease)
- Mental Health
- Primary Care

- ✓ Do you have an innovation which addresses one or more of the Call themes?
- ✓ Does your innovation demonstrate, in practice, significant outcomes for lower cost?
- ✓ Is your innovation supported by an evidence base and ready to be diffused across the NHS?
- ✓ Do you have a passion for learning and for sharing your insight widely?
- ✓ Are you committed to scaling evidence-based innovations for patient, NHS staff and population benefit?

Apply by 24th October 2018

If you answered 'YES' to all of the above, we want to hear from you!

Applications open on 5th September

"A revolutionary programme to give innovators the skills and guidance to support fast and systematic spread of innovation across the NHS. It has been a fantastic experience for me and my innovation, and I would recommend this programme to any entrepreneur."

Maryanne Mariyaselvam, 2015 Fellow

"If you're from a commercial background, it will fast-track your NHS learning, and if you're from the NHS it will open your eyes to different ways of thinking. Most of all, it will give you the support and framework to be the best you can be."

Tom Whicher, 2016 Fellow
